Immunvital

## Product Information

**Liquid supplementary feed for horses to support the immune system and to improve vitality and motivation.**

A healthy immune system is the basic requirement for self-healing in the case of infections, sores or allergies. Mainly through stress and overload, but also through obesity or metabolic disorders, this causes the immune system to weaken.

Immunvital stimulates the immune system with numerous micronutrients such as vitamin C, vitamin A, B vitamins, folic acid, vitamin D, zinc and selenium.

Immunvital also contains seven important natural active substances for immune defense: echinacea, ginseng, rock rose, hawthorn, artichoke and rosemary. The natural active substances have a strong effect on the immune system in the form of phagocytosis stimulation which in turn activates macrophages. They also contribute to the regeneration of the intestinal milieu and stabilize the cardiovascular system.

Contains bile-promoting and liver-detoxifying herbs such as artichoke that will support a healthy liver for your horse.

Adequate zinc supply is essential for the formation of white blood cells as well as the formation of the skin and mucous membrane, thus the formation of mechanical barriers depend on a healthy zinc supply.

In addition, Immunvital contains essential amino acids such as lysine and threonine, which are heavily involved in the maintenance and development of vital metabolic processes.

## Who it should be applied to:

- **Sport and leisure horses:** To increase performance, to support the immune system; especially in stressful situations (competitions, transportation, intensive training, stable change etc.)
- **Breeding:** For vitalization in pregnancy, to support the immune system in foals.
- **Older horses:** To maintain physical condition

## Feeding Recommendation:

Body weight	Amount
400 kg	20–40 ml / day
600 kg	30–60 ml / day

### Composition:

1.2 – Propandiol, Dextrose, Sodium chloride

### Analytical Components:

Crude protein 4.5 %, crude fat 4.5 %, crude ash 1.6 %, crude fibre 0.5 %, Humidity 80.4 %, sodium 0.5 %

### Additives per liter:

#### Nutritional physiological additives

Vitamin A (3a672b) 4,000,000 I.E.

Vitamin E (3a700) 100,000 mg

Vitamin B1 (3a820) 650 mg

Vitamin B2 (3a826) 650 mg

Vitamin B6 (3a831) 300 mg

Vitamin B12 as cyanocobalamin 5,000 mcg

Vitamin C (3a300) 20,000 mg

Niacinamid (3a315) 10,000 mg

folic acid (3a316) 200 mg

Calcium-D-Pantothenat (3a841) 6,000 mg

Zinc as Glycine-zinc chelates, hydrate (3b607) 1,000 mg

Selen as Sodium selenite (3b801) 5 mg

3.2.3 L-lysine monohydrochloride, technically pure 10,000 mg

L-Threonin (3c410) 5,000 mg

#### Sensory additives:

Mixture of flavours (echinacea, rock rose, Ginseng, hawthorn, artichoke and rosemary) 79,500 mg

#### Technological additives:

Sodium propionate (E281)

**Presentation:** 500 ml
