Keraderm

Product information

Liquid feed supplement to support healthy hooves and coats

Keraderm contains a mixture of high quality oils as a source of unsaturated omega-3 and omega-6 fatty acids as well as phytosterols. Keraderm supplies horses with biotin, zinc, organically bound manganese and the sulphur containing amino acid methionine, that is essential for horses. These nutrients stimulate the horse's epithelium and horn metabolism and provide nutrition for the skin, hair and horn structures.

Application recommendations

To give with the feed or administer with the enclosed mouth syringe.

Body Weight	Recommended amount
200 kg	3.5–6 ml
400 kg	6–10 ml
600 kg	10–15 ml

Because of its higher content of trace elements in comparison with complete feeds, this feed supplement should be given to horses only in an amount of up to 1.0 % of their daily ration.

Application advice

Shake well before use!

Keep the bottle overhead while filling the mouth syringe.

Feeding Duration

Minimum 100 days with daily administration.

Composition:

Linseed oil, safflower oil, soybean oil, borage oil, sunflower oil, maize germ oil

Ingredients:

Crude Protein 2.1 %, Crude Fat 78.1 %, Crude Fibre 0.1 %, Crude Ash 4.1 %, Sodium 0.1 %
