Product information

Liquid feed supplement to reduce anxiety and stress

The Arglasol®-Complex contained in Relax AC is a premix composed of mongolian artemisia, lemon balm, whitethorn and hop. A lot of herbal active components that have a proven calming effect in situations of stress. Their common effect is to stop the transfer of stress-informations in the nervous system.

The effect of the Arglasol®-Complex begins 1 to 2 hours after application and lasts up to 4 to 5 hours.

Why Relax AC?

The experiences of our clients showed the following advantages and fields of indication:

- Reduced anxiety and panic – less scary
- Improved rideability
- Easier loading
- More calmness during treatment of black smith and vet
- Horses are not sleepy but 100 % coordinated
- It is easier to get the horse's confidence!

Feeding recommendations

Approx. 2 hours before the nervous tension occurs. Fed via the feed or by oral syringe. The required dose of Relax AC depends on the individual tendency to nervousness of the horse.

Body Weight	Horse Type: Calm temperament	Horse Type: Spooky and anxious, excitable temperament
200 kg	10 ml	15 ml
400 kg	20 ml	30 ml
600 kg	30 ml	50 ml

Doping restrictions do not apply
