Skin & Hair

SCP Spray

Product information

Soothing, antiseptic wound spray that removes excessive moisture from open wounds and aids in the management of cuts, sores and proud flesh.

The selected ingredients (Zinc Oxide, Oregano Oil, Teatree Oil and Marigold Oil) soothe sensitive and irritated areas of the skin, disinfect and decrease skin tension. In this way SCP Spray relieves itching and reduces the tendency to scratch. Camomile and Arnica oil have a soothing effect and have been used for centuries to aid in the healing process.

Fields of application

Injury of the skin e. g. Bites, Cuts or Grazes

Step on the pad of the hoof

Application recommendations

Clean the affected area carefully. Shake the bottle well until the powder sediment is thoroughly mixed by the steel ball inside of the container. Spray 2–3 times daily from a distance of 10 to 20 cm.

Presentation 200 ml spray bottle
