Ulcosan

Ulcosan is an advanced veterinary developed feed supplement containing a unique blend of natural ingredients to maintain gastric health, soothe the stomach wall and support the balance of pH levels within the gut.

Pectins of carrot and apple pomace build up a gel layer to coat the stomach wall and calm excess acid, helping to soothe stomach discomfort. Herbal ingredients (grape seed, milk thistle, yucca schidigera, licorice root) help to maintain a normal stomach environment. Magnesium citrate and Tryptophan help reduce stress and as such help ease the associated symptoms of erratic behaviour, stable vices, tooth grinding and weight loss supporting wellbeing and performance. Pre- and probiotic yeasts support the digestive processes and balance the bowel.

## When to consider Ulcosan?

- To aid the recovery of horses from gastric upsets
- To help manage stomach discomfort
- To help support horses during periods of stress and strain e.g. during transportation, weaning of foals or conflicts in the herd
- To aid digestion in horses with suboptimal intake of feed
- When high performance is required
- When feeding high levels of concentrates
- When changing types of feed

Ulcosan can be given before or during competition under current FEI rules.\*

## Feeding recommendation

15–20 g per 100 kg bodyweight per day, divided between 2–3 meals.  
Highly palatable formulation ensures excellent acceptance.

### Body Weight

200 kg	30–40 g
400 kg	60–80 g
600 kg	90–120 g

Feed for a minimum period of 3–4 weeks, can be used long term.

### Composition:

Apple pomace, carrot flour, carob flour, banana flour, licorice root, linseed, milk thistle, yucca schidigera, spent grains, magnesium fumarate, dextrose, sugar beet molasses, grape seed flour, brewers's yeast, artichoke leaves

### Ingredients:

Crude protein 9.3 %, crude fat 4.6 %, crude fibre 11.7 %, crude ash 7.8 %, sodium 0.1 %, magnesium 0.6 %

### Additives per kg:

Diet-Physiological additives: Choline chloride 3,000 mg, zinc as zinc oxid (E 6) 1,400 mg, L-tryptophane 2,000 mg  
Technological additives: Lecithin 10,000 mg, kieselguhr 30,000 mg

Digestibility Enhancer: 150 x 10<sup>9</sup> CFU Saccharomyces cerevisiae (NCYC Sc47 / 4b 1702)

Presentation 2.5 kg tub

\* Please check all rules relating to prohibited substances for the relevant sport governing body before use.

# NATURAL GASTRIC SUPPORT

**BARRIER**

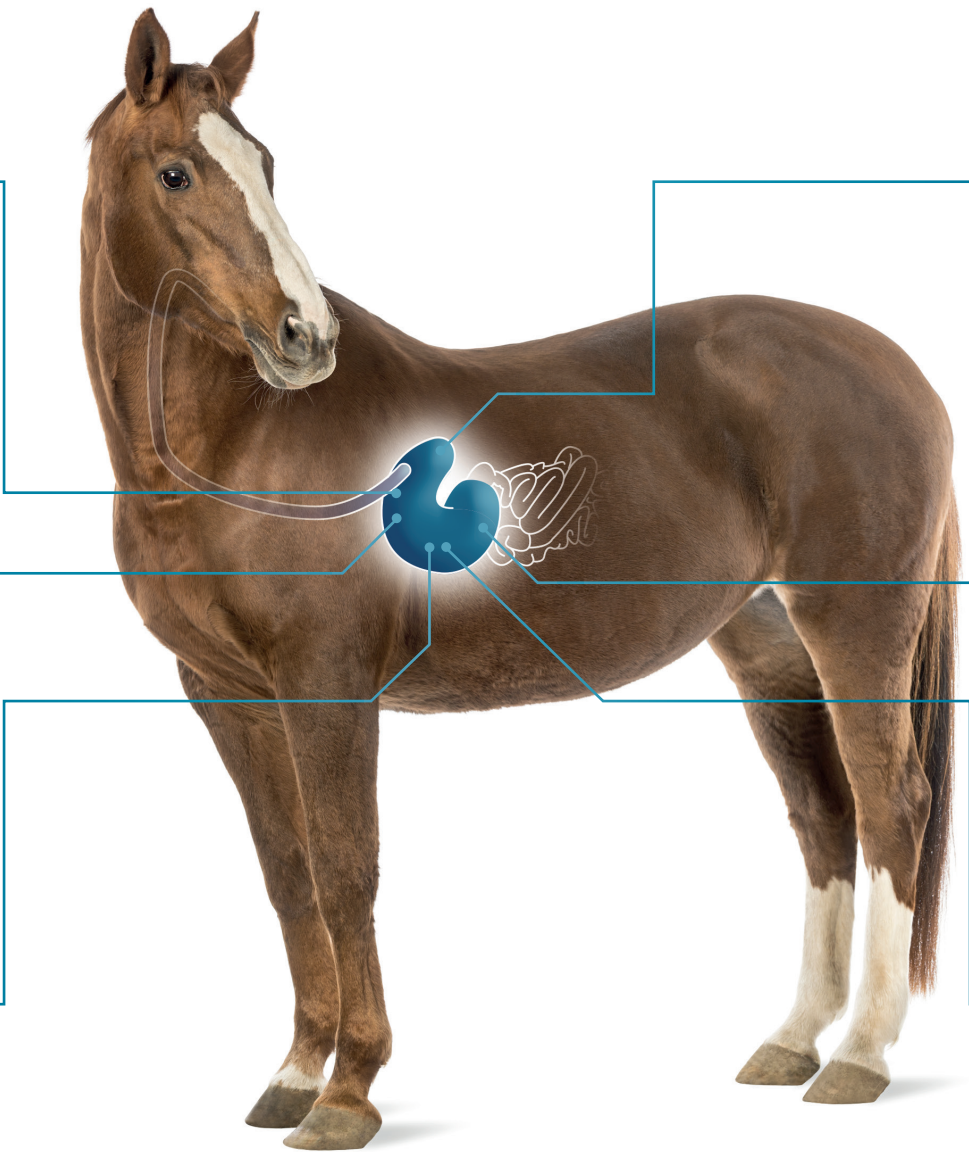

Pectins derived from carrot and apple pomace build up a gel layer and coat the gastric mucosa.

**SOOTHING**

Herbal compounds like yucca and liquorice root provide saponin, which reduces discomfort.

**NATURALLY REDUCES STOMACH ACIDS**

Amino acids and mineral salts balance gut pH and calm excess acid.

**STRESS MANAGEMENT**

Magnesium citrate and Tryptophan help to keep horses calm.

**USES**

Ulcosan may be used alone or can also support the benefits of veterinary treatment when used as part of an aftercare regime.

**SPECIAL GRANULE DESIGN**

Ulcosan comes in dry granule form which means it stays in the stomach for longer and is well accepted by horses in feed.
